

EXECUTIVE LEADER

15+ years of Senior Management and Senior Legal Counsel Positions

- Proven success as an executive leader who possesses the determination, know-how, and strategic mindset for building partnerships, expanding services, balancing various stakeholders, and meeting goals.
 - Extensive experience in a specialty hospital which provides comprehensive pediatric specialty care covering a 17-county market area.
 - Solid reputation for implementing new programs and projects.
 - Generates buy-in from physicians, nurses, and hospital staff by soliciting stakeholder input through a series of systematic transparent steps prior to program launch while ultimately achieving goals, timelines, and ROI.
-

CAREER HIGHLIGHTS

Strategic Development: Directly involved with the strategic development and implementation of a strategic plan and a long-range Master Campus Plan (~33 acres). Work with executive team to timely track and ensure connectivity to legislative priorities and 10-year financial plan.

Network Affiliations: Part of the team that created a neonatal network across west central Florida and later led and expanded the network to include other NICUs, pediatric specialists, surgeons, perinatologists and transport services under a sustainable economic model.

Executive Board | Leadership: Extensive interface with hospital Board of Trustees, foundation Board of Trustees, management boards, Executive Committees, Physicians, Philanthropists, and "C-level" executives.

Project Management: Managed multiple ongoing projects encompassing physician recruitment and employment, regional network expansion, enterprise wide risk management tracking system, real estate purchases, management of academic partners, transition from self-insured retention model to risk retention group, communications, manage all administrative policies for system.

Legal: With a lean team of attorneys, paralegals, licensed risk managers, claims adjuster, corporate secretary, compliance officer, privacy officer provided all health care regulatory and transactional work and managed outside panel of attorneys for labor, ERISA, defense litigation and other specialized advisors.

Compliance: Instrumental in establishing an extensive physician compensation plan, the early version of the compliance program and HIPAA policies, procedures, and gap analyses.

Johns Hopkins All Children's Vice President, Chief Strategy Officer

Key executive team member with direct oversight of the strategic planning and business development, implementation, and clinical network of academic and hospital affiliates. Responsible for connecting the legislative priorities plan, community health need plan, master campus plan and 10-year financial plan to the strategic plan. Supported the President and CEO, President's Executive Cabinet, the community Boards of Trustees, 7 subsidiary boards, Physician Chairman and Institute Directors, Chief of the Medical Staff, Capital Committee, Graduate Medical Executive Committee and Physician Compensation Committee.

Led a team who managed a network that covered 17-counties, 12 hospital units and many consultative services including coverage for over 17,000 births. Accountable for value proposition statements for strategic priorities, corporate bylaws, governance including trustee liaison, risk and insurance, enterprise wide risk plan, and administrative policies for all entities (hospital, home care, physician groups, research and grants, foundation, retail / restaurant corporation).

- Supported two strategic plans (ambulatory footprint and physician acquisition / employment) and designed and managed a strategic plan centered on academic transformation and developed a new plan related to access and growth; monitored metrics for all strategic plans and other business plans and growth strategies and reported same to Board of Trustees Planning Committee.
- Worked closely with the Board of Trustees Building and Grounds Committee to purchase and bank real estate to amass over 33 acres in adjacent properties for main campus and many outlying properties; supported master campus plan and the connectivity of each institute and department plan.
- Annually managed over 25 clinical coverage contracts, academic partners and supported hospital-sponsored pediatric residency program.
- Developed the exclusivity model for the medical staff and affiliates; monitored certificate of need issues, added two 'second opinion' vendors, and set the foundation for a Clinical Integrated Network (CIN) and bundled care model.
- Balanced strategic objectives and initiatives with enterprise-wide risk management plan.
- Supported the international program, external corporate relationships and phased in the first retail strategy, including for-profit corporation, simulation center and restaurant.

Maintained one of the highest engagement scores of the JHACH executive team each FY despite corporate changes.

Johns Hopkins All Children's Chief of Staff

Accountable for alignment and coordination of boards, councils, institutes, and departments (internal strategy), Governance, Risk and Insurance, physician relationships / medical staff relationships, physician compensation plan, and the refresh and alignment of administrative policies.

- Implemented consensus management structure (process flow and decision cascading)

- Lead point of contact for trustees; managed Corporate Secretary to oversee board and committee meeting logistics and board communications and reporting for nine corporate entities and 13 standing committees; and managed trustee nomination and orientation process.
- Responsible for physician compensation committee for 200+ physician employed physicians. Teamed with outside vendor and managed internal analyst and senior director who produced FMV opinions (11 in last FY), comp cards with wRVU benchmarks (197 last FY), division restructures, leaves or parity issues, all new hire or candidate offers (~30 last FY), and all extra pay calculations (over 1200 incentive worksheets and 120 extra or exceed bonuses).

Johns Hopkins All Children's Legal Affairs, Risk Management & Insurance Departments

- Acted as in-house counsel when hospital was an independent, specialty-licensed children's hospital with various related healthcare entities including two physician employment companies, a home care company and a research institute. Served as counsel to IRB, medical staff bylaws committee, compliance committee, risk management committee, self-insured retention oversight committee, licensure and regulatory team, HIPAA advisory team.
- Acted as in-house counsel during multiple years of due diligence and negotiations leading to a sole member substitution transaction between All Children's Health System, Inc. and The Johns Hopkins Health System Corporation and integration into Johns Hopkins Medicine.
 - ✓ Supported all leaders and maintained all legal functions during over 3 'quiet' years of due diligence and negotiations.
 - ✓ Initiated special claims such as a BP Oil Settlement that grossed over \$4M payable over two fiscal years.
 - ✓ Accountable for negotiating and maintaining central repository of all contracts with a focus on mitigation and / or elimination of risk, including, but not limited to, physician practice acquisitions, physician employment, clinical services, academic affiliations, equipment and service agreements, clinical trial / research agreements, hospital policies, space leases, construction, EMTALA, technical (IT), marketing, human resources, HIPAA and special event services / venue agreements. Physician acquisitions and employment agreements resulted in a growth of the employed physician groups from less than 25% of the active medical staff to over 70%
- Managed legal aspects of hospital's construction projects to build a new freestanding 9-story specialty hospital, central energy plant, 6-story outpatient care facility and connected parking deck.
- Directed and grew risk and claims department from two licensed risk managers to four full-time risk managers and a full-time claims manager to elevate the span of influence, increase proactive attention to risk areas, and reduce claim expenses and develop loss control programs.
 - ✓ Moved from paper-based incident reporting system to electronic incident reporting system.
 - ✓ Managed outside panel and team who managed resolution of PL, GL, Auto and Property claims. Worked with health system treasury to secure other coverages: cyber, D&O, managed care, sexual misconduct, travel, and liquor liability.
 - ✓ Provided mandatory training to create awareness and performed proactive risk assessments based on clinician or leadership input as well as new acquisition and strategic organization initiatives.
 - ✓ Chaired Risk Management Committee, Claims Management Committee and Adverse Medical Incident Committee; supported survey readiness team; executive champion to one of five (AHRQ) Comprehensive Unit-based Safety Programs.
